Rinse with clean and dry water with a soft country. When the cleaning surfaces, ensure that they are at new a new ambient temperature: DCVH680GI0ms JGB915 Spectra Electric Oven User Manual, Owners Manual for Ge Spectra Range, Ge Profile Free Standing Gas Range Proof Self Cleaning, Ge Spectra Electric Range Use Manual, Ge Spectra Stove, Ge Spectra Profile Página 2 The following are general instructions to establish the Clean auto cycle in the oven or range with mechanical controls. See your owner's manual for specific instructions of your model. Download a copy of the owner's manual. Before executing the autolimpio cycle, eliminate all kitchen utensils, racks, coatings (fogmino, silicone carpets*), food and heavy depths of the oven floor. You can use a plastic and water cut ball to remove any heavy soil. At the gates of the window with shields, slide the door shield to the closed position, then close the door. If your model has a liberation boton of closing, press and maintain the release of the bandage while sliding the oven to the clean position. Turn the baking set and temperature ovens on the "Clean" clock. If the temperature knob does not have a "Clean" position, turn the knob at any temperature. Push and turn the Dial Stop ahead from the current moment of the day: 2 hours for light soil or 3 hours for heavy soil. Ex: If the current time is 9:30, set the clean stop dial to 12:30 for a 3 HR. cleansed. The "clean light" comes immediately to indicate that the clean cycle has begun. In some models it can turn on and off. The "Lock Light" will light 30 - 40 minutes in the cycle. When the clean cycle is over, the clean light will turn off. Approx. 30 - 40 minutes after the clean light has come out and the oven has cooled, the "Luz del Loco" will turn off. When the "lock" "lock" ndoow a hitw hguorht of ekop ,etutuhc eht gnkicolb. ,tuhs eht eht rood eht esuac ro eht maj maj nac pudcab il ,nib egarots eht ot sgab ro syart morf eci dda ton oDresnepsid ruoy tuobá stcaF tnatropml, resnepsid retaw dna eci eht tuobAsnoitcurtsnl gnitarepOytmarraWteehS atad ecanmrofrEPropuS remusnoCtroppuS remusnoCsdnoS gnitarepO lamroNecivres roFilaC uoY erofehsptI gnitoohselbuorTnoitallatsnl eniL retawilatsnl ot gniraperPsoitcurtsnl noitallatsnlshub B thqILgninaeICgninaeIC dna eraCeqdirtraC rediF retawisnlB dna sevlehSresnepsid retaw dna ecdserutaeF latsnl ot woHsnaP dna sprepirCslortnoCrekameci citamotuAsnoitcurtsnl gnitarepOsnoituacerP ytefaSlasopsid reporPsdroC noisnateYyticritcele tcnenoCnoitamrofni ytefaSSTNETNOCCCDGJ52HSG EGA ÁrotaregirfeR edIS-yB-edISÁ ÁlaunaM sÁÁÁerenwO jhsnapS ,henerF ,hsilqnE(- launam s'renwO ldaoIwmnod ot oG -stnemucOD. The cans, bottles or food packages in the storage container can make the icemaker or the symphoge get stuck. To prevent the dispensed ice from being lost the glass, place the glass nearby, but without touching, the opening of the dispenser. Some crushed ice can be dispensed even though you selected in cubes. This happens occasionally when a few cubes have been left in the crusher. After the crushed ice is dispensed, you can drip a little water from the ramp. Sometimes a small snowman will be formed at the door on the ice channel. This condition is normal and generally occurs when it has dispensed repeatedly crushed. The snow will eventually evaporate. The first vessel of dispensed water can be more than the next. This is normal. The scattered water is not frozen. For colder water, simply add ice or crushed cubes before dispensing water. On the water filter cartridge. Filter cartridge installation The replacement cartridge with tap water to allow a better flow of the dispenser immediately after installation. cartridge and cartridge. Place the top of the new cartridge inside the support. Do not push it towards the support. Get it to the right until the filter cartridge stops. Do not flutter. As the cartridge converts, it will rise automatically in its position. The cartridge will move around a turn à½. Raise the water from the dispenser for 1-1/2 gallons (approximately three minutes) to clear the system and avoid spraying. For three seconds. Loading and cleaning of the refrigerator. Cleaning The dripinea of the outsidethe dispenser; (in some models) under the rack, it must be dried. The water that remains in this area can leave deposits. Remove the deposits adding rodasnepsid rodasnepsid IE ,esraqajne arap omoc sotleus etnemetneicufis ol navleuv es o nacerapased sotsis'Aped sol euq atsah ejomeR ,ozop la riulid nis (in some models). Before cleaning, close the dispenser by pressing and holding the locking pad for 3 seconds. Clean with warm water from baking soda to a room (1 l) of water. Rinse well and clean dry. The door handles and cuts. Clean with a wet cloth with soapy water. Dry with a soft cloth. Keep the outside clean. Ring with a clean cloth slightly moisturized with a socket or soft liquid detergent. Dry and polished with a clean and soft cloth. Cleaning the interior To help prevent smells, leave an open baking soda box in the refrigerator and freezer compartments. Deploy the refrigerator before cleaning. If this is not practical, remove excess moisture from the sponge or cloth when cleaning switches, lights or controls. a spoonful (15 ml) of soda bicarbonate to a room (1 l) of water. This cleans and neutralizes the smells. Rinse and clean dry. After cleaning the door joints, apply a thin layer of the oil jelly to the door points on the side of the hinge. This helps to prevent the gases from sinning and flexing in form. Behind the fridge Be careful when moving the refrigerator away from the wall. All types of floor coverings can be damaged, especially padded covers and those with surfaces in relief. Remove the refrigerator directly and return it to the position by pushing directly into. Moving the refrigerator in a side direction may result in damage to the floor covering or refrigerator. By pushing the refrigerator again, make sure you don't roll over the power cable or the ice supply line (in some models). Vacation Preparation For long holidays or absences, remove the food and deplify the refrigerator. Clean the interior with a baking soda solution, allirrap ,allirrap al omoc sotleus sotnemele sol sodot eruceSevoM arap n'ÄicaraperP ,rodaregirfer la auga ed ortsinimus le erreic y FFO n'Äicisop al a oleih ed etnacirhaf led a.
